The McMillan Centre for the Arts in Education

In this issue:

- Arts Award
- Saturday Art Club
- Children & The Arts
- PLAY sessions

Arts Award Pilot

Students on the Early Years and Childcare courses at Bradford College will be taking part in a pilot scheme to measure the impact of the arts on learning. 40 students will have the opportunity to engage in arts-based activity to support their course work. These students will gain a Bronze Arts Award in the process. They will be coached and mentored by Higher Education students who will gain the Gold Arts Award.

Saturday Art Club in London

Bradford School of Art have been hosting FREE art classes on Saturday mornings since November 2017. On June 9th 14 young artists saw their work exhibited at Somerset House in London along with hundreds of other art club members from across the country.

Scarlett Rayner, who leads on the Saturday Art Club said,

“It has been a brilliant year. The club members have developed not only in their art practice but also in their levels of confidence and self belief.”

Children & The Arts

Two groups of students from Bradford College have taken part in the START project this year. In collaboration with The Alhambra Theatre and the charity Children & The Arts they have worked with arts practitioner Julia O’Keeffe to gain an insight into the world of theatre. They watched the Pantomime, Cinderella, and were able to meet some of the cast for a question and answer session. They also saw the production of Dr Jekyll and Mr Hyde and took part in a ‘page-to-stage’ event. As a result of these experiences the students will achieve their Bronze Arts Award.
